

I-10: Ruthrauff Road Traffic Interchange Final Design

PROJECT DESCRIPTION

The purpose of this project is to prepare all the final design documentation necessary to fully reconstruct the Ruthrauff Road traffic interchange in accordance with the I-10, Ina Road TI to Ruthrauff Road TI Project documentation.

Ruthrauff Road is currently at-grade and I-10 goes over it. This project will:

- ▶ Lower I-10 to go underneath Ruthrauff Road
- ▶ Widen I-10 to four lanes in each direction
- ▶ Widen Ruthrauff Road to two lanes in each direction
- ▶ Reconstruct the frontage roads
- ▶ Raise Ruthrauff Road over Davis Avenue/Highway Drive, the Union Pacific Railroad and I-10

This project is currently scheduled to be constructed in 2018 and is partially funded by the RTA. Business access will be maintained throughout construction.

PROJECT TIMELINE

2009

Study kicks off.

2013

Final Design Concept Report and Environmental Assessment/Final Design begins.

2017

Final Design is completed.

2018

Construction is anticipated to begin.
